

DO YOU HAVE GUESTS ARRIVING SOON? OUTDOOR ENTERTAINING OVER SUMMER?

Getting your lighting right outside is just as important as it is indoors. Lighting can bring your outdoors to life, highlight certain features and add an element of safety.

OUTDOOR LIGHTING CAN TRANSFORM YOUR YARD

We can install lights and additional power points outside. This means you can make the most of the warmer weather and stay outside longer!

WE CAN INSTALL:

- DECKING LIGHTS
- PATH LIGHTS
- POOL LIGHTING
- STEP LIGHTING
- OUTDOOR SENSOR LIGHTS

Can't decide where to position your lighting? Here are some tips to help you with your outdoor lighting plan.

1. Make sure steps and hazards are visible
2. Motion detectors are a great way to light up walk ways and driveways
3. Use timing switches for entertaining spaces
4. Make sure outdoor cooking areas have ample lighting

MAKE YOUR HOME AND BUSINESS TECHNOLOGY FRIENDLY!

An adaptable, efficient and reliable solution.
ANYTHING THAT REQUIRES A USB PORT!

Did you know that 79% of Australians own a smart phone and 59% own a tablet!*

These devices are designed to make our lives easier. But bulky charger bases can stop us from taking advantage of available power points.

A POWER POINT WITH A USB PORT ELIMINATES THIS PROBLEM!

We only use energy efficient USB ports that meet Australian Standards and are compatible with both Apple and Android devices.

Have them installed anywhere in your home or business!

CHARGE TABLETS, PHONES & SPEAKERS

BE READY FOR SUMMER

CALL US TODAY

HOSTING GUESTS OVER SUMMER? NEED TO GET ON TOP OF THOSE ELECTRICAL ODD JOBS?

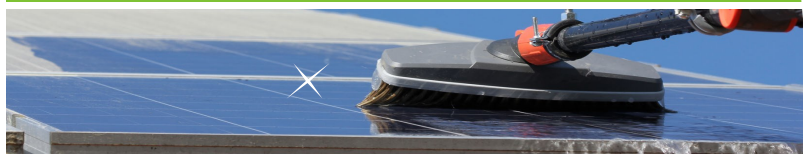

TIME TO GET YOUR HOUSE IN ORDER AND PREPARE FOR THE WARMER DAYS AHEAD

ADDRESS THOSE ELECTRICAL ISSUES YOU HAVE BEEN AVOIDING

- Do you have a stove or hotplate that's not working?
- Are you sick of running extension cables—need an extra power point?
- Do you need a ceiling fan in the guest bedroom?
- Have a faulty power point that needs fixing?
- Are your light fittings in need of an upgrade?

IT'S TIME TO CLEAN YOUR SOLAR PANELS ✨

TRAFFIC DUST, LEAVES AND BIRD DROPPINGS MAY BE PREVENTING SUNLIGHT FROM REACHING THOSE IMPORTANT SOLAR CELLS.

If your panels have not been professionally cleaned with 100% deionised water, they may be under-performing by up to 25%-30%*. We use purpose-built equipment that is guaranteed not to scratch and ensures your manufacturers warranty is valid.

We don't use chemicals or detergents which could otherwise damage the rubber seals or glass, resulting in a more efficiently running system and saving you money in the long term.

SOLAR PANEL CLEANING

10 Panels \$50 + GST

Extra Panels \$5 + GST each

Offer ends 30th November

*According to research studies conducted by Solar Electric Power Association (SEPA) & various other organisations
